WIND ENERGY PRACTICE GROUP

Cleantech Law Partners is a full-service law firm dedicated exclusively to the unique legal and policy needs of renewable energy project developers and cleantech companies. Our attorneys have extensive knowledge of and a passion for these industries, and experience advising clients on a variety of alternative energy projects, including: solar, wind, geothermal, biogas, tidal/wave, micro-hydro, and energy storage.

Cleantech Law Partners helps developers, investors, manufacturers, and entrepreneurs develop and finance projects, draft and negotiate various agreements, secure intellectual property rights, access government funds, and manage financial transactions. CLP also serves as outside in-house counsel for renewable developers and financiers.

Cleantech Law Partners assists:

- > Renewable energy project developers
- > Cleantech startup companies
- > Wind energy developers and installers
- > Renewable energy EPC companies
- > Environmental consulting firms
- > Producers and suppliers of wind tech
- > Landowners considering wind
- > Wind energy contractors
- > Manufacturers of wind turbines
- > Government agencies and policy makers
- > Investors in clean technologies
- > Utilities switching to alternative energy
- > Community wind energy projects

Areas of Expertise:

- > Project structuring and financing
- > General counsel services
- > Corporate management and restructuring
- > Power purchase agreements (PPAs)
- > Solar acquisitions and mergers
- > EPC agreements
- > Project due diligence
- > Financial transactions and investments
- > Intellectual property and licensing
- > Economic incentive programs
- > Policy analysis at federal, state and local level
- > Permitting, siting, and regulatory compliance
- > Tax equity investment
- > Interconnection agreements and grid access
- > Government relations and lobbying
- > Solar projects on tribal lands
- > Draft legislation, amendments and regulations
- > Private equity and venture capital
- > Land lease agreements
- > Environmental compliance

Representative Matters:

- > Represented investors in wind energy projects
- > Negotiated PPAs and offtake agreements for a variety of energy projects
- > Secured land use and environmental permits for major wind energy project developers
- > Drafted land lease agreements for renewable energy project developers
- > Negotiated interconnect agreements for utility scale wind project developers
- > Advised world's leading wind energy company as in-house counsel
- > Advised wind energy developers on environmental law requirements during site selection
- > Counseled landowners on financial aspects and legal implications of wind projects
- > Represented banks regarding due diligence and debt facility for wind project loans
- > Represented community based wind energy project developers
- > Revised PPA template for government agency

Wind Team Profiles:

JON NORLING is a seasoned renewable energy attorney with experience working as general counsel for a regional energy developer in the process of developing over 1,500 MW of renewable energy projects. He has represented clients in all aspects of renewable energy project development and finance. Jon is an adjunct professor at Lewis & Clark Law School teaching renewable energy development law.

LOLLY ANDERSON specializes in corporate, energy and environmental law. Her practice includes advising clients on real estate and environmental permitting, renewable energy development, mergers and acquisitions and corporate formation and compliance. Before joining CLP, Lolly was in-house counsel at a solar and wind acquisition and financing platform where she worked on project acquisitions and corporate compliance.

JOSH NATHAN is an experienced renewable energy and corporate transactional attorney. For more than 25 years he has represented manufacturers, EPC contractors, service providers and developers in the construction, technology and clean energy sectors. Josh has consulted renewable energy companies in a wide range of projects, completing more than 950 megawatts.

GORDON ALTER has broad experience in renewable energy development, investment and financing. Most recently, he acted as general counsel for a publically listed energy developer. He has experience in all phases of renewable energy project development, including land acquisition and permitting, financing, M&A transactions, power purchase agreements, interconnection and transmission service agreements, and EPC contracts.
